## | **BGV Oil & Gas**

The company's assets include 8 licenses for exploration and production of natural gas and crude oil.

**BGV OIL & GAS**

## **OIL & GAS**

### **Kharkov, Poltava, Lugansk and Odessa Regions, Ukraine**

Oil and gas line of BGV business was established in 2015 and includes exploration and production of oil, gas and condensate. Oil and gas companies controlled by BGV face an exploration risk typical for the upstream sector. At the same time, the risk related to the sale of produced hydrocarbons in Ukraine is small due to the high demand for energy sources.
